Re: Determination of Administrative Completeness, New Permit Application, Lila Canyon Extension, UtahAmerican Energy, Inc., Horse Canyon Mine, C/007/013-PM02B, Outgoing Folder

Dear Mr. Marshall:

The Division has completed a review of the application you submitted dated February 11, 2002, which proposes to add the Lila Canyon Extension to the existing Horse Canyon Mine.. The purpose of this review is to determine the Administrative Completeness of your application or in other words determine if the application contains all information necessary to initiate processing and public review. With the additional information you submitted on February 19, 2002, your application is now determined to be administratively complete.

The technical review and analysis of your plan is now underway. The Division will also coordinate with other agencies and incorporate their comments into our review process.

At this time you should publish a Notice of Complete Application for the Lila Canyon Extension to the Horse Canyon Mine as required by R645-300-121. A copy of the publication should be sent to the Division as soon as it is available. You should also insure that a copy of the application is on file at the Carbon and Emery County Courthouses. We look forward to working with you throughout the permitting process. Please call if you have any questions.

Sincerely,

Mary Ann Wright  
Associate Director, Mining
